Conclusion

2022

- Lower Cattle Farm Income
- Cattle prices increase sharply but seasonal and volatile
- Higher input prices offset rising output prices
- Consumer prices increase globally

2023

- Supply-side factors
- Rising cattle prices
- EU production declines
- UK production increases
- Consumer demand in key export destinations
- EU Export Share

Thank You

Cattle Rearing – Top One-Third Margins Down in 2022

Gross Output Up 11%

Gross Margin Down 7%

Total Costs Up 24%

Average Net Margin Per Hectare

- +240 in 2021
- +91 in 2022
